Thanks, Emmanuelle. I will be in the office next Monday and Wednesday and will be WAH on Tuesday and Thursday.

I had my monthly call with Hopi this morning. (I will be adding you to the distribution list for the calls. John Hamilton presently writes up the call notes.) The reason why a proposal was not submitted for the HAMP for the FY 2016 DWTS money was IHS had "assumed" that the previous year's proposal was adequate. I told both IHS and Lionel that a proposal needs to be submitted every year.

Good news on the HAMP. There is a new group of Hopi Tribal Council members and they are all for the HAMP. While the financial audit of the Hopi Tribe continues, the Hopi Tribe will be submitting its funding application package to USDA (Lionel thinks in January 2016) so USDA can start its review of the PER, strategic plan, EA. The final piece of the application will be the financial audit. The USDA person that will be reviewing the application package has already indicated she does not need the entire package in order to start her review.

The new Hopi Tribal Council has told Hopi staff to start looking for a General Manager for the Hopi Public Utility Authority. Lionel indicated that they want to have a General Manager in place in the next couple of months (he was hoping by January 2016).

Hi Bessie,

Just FYI, the Navajo letter is currently with Mike and may or may not require input and or signature from Tomas/Jared. I'll be out of the office starting tomorrow, and David thought that the letter wouldn't get sent until next week at the earliest. So just wanted to give you a heads up to coordinate with David on getting the letter out. I'm sure he'll be in touch. Thanks,

Emmanuelle

Please: All data submittals to our office should be sent by email to datamanager@epa.gov with a copy to me (or your project manager in the Drinking Water Office). Data reports are due no later than the **10th** of the month following the month that you receive results, or the **10th** of the month following the compliance period, whichever comes first. Please include the whole lab report and copy of the Chain of Custody. Label with PWS name and number; & source or distribution system location codes or names for data collection points.

I made some minor editorial changes to the two documents. For instance, making sure that USEPA is used consistently throughout the documents, rather than EPA; or the Phase numbers are consistently numeric (2 rather than II). I also moved Yolanda Barney up the cc list since I thought it would be good to group all the NNEPA people together.

Thanks for the edits.
